

IERS Conventions Updates Session Summary

- **Thank you to the conventions contributors and the organizing committee**
 - **Hana Krasna for volunteering as chapter 7 editor**
- **Proposal to release IERS Conventions v2.0.0 near end of 2026**
 - **Chapters note which version they were last updated for user awareness**
 - **Release minor updates as chapter updates are provided (ex. V2.1.0)**
- **Key Action Items:**
 - Update a couple of chapter 1 table 1.1 values and move table 1.2 to supplementary material
 - Remove lunar system information from this version
 - Move historical discussion to supplementary material or as references to previous conventions
 - Move FCN models to supplementary material and update precession and nutation models
 - Harmonize tables/information across chapters 5, 6, 7, & 8
 - Provide DOI and citation to community
 - Update software for all chapters as needed
 - Work with contributors to complete all action items identified during session and UAW discussions
